

LuminoKrom[®]

THE RANGE OF GLOW IN THE DARK PAINTS

Durable & high-performance

OliKrom
SMART COLORS

Night-time visibility for up to 10 hours without energy consumption or fatigue

Developed and produced in France by OliKrom, LuminoKrom® paint captures daylight and illuminates at night, creating a **luminous guide visible for over 10 hours**.

Thanks to its patented technology, LuminoKrom® has been keeping users safe on over **450 luminescent sites** in France and around the world since 2018.

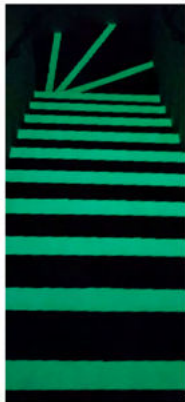

Durable, eco-friendly and easy to apply, LuminoKrom® is the perfect solution for **improving night-time** safety in unlit environments.

USES

A lighting solution for any environment

LuminoKrom® paint is suitable for a **wide variety of contexts and applications**. From cycle paths and pedestrian walkways to accident-prone areas and industrial environments, LuminoKrom® allows **safe mobility in the dark**, without electricity or maintenance.

An innovative response to the challenges of night-time visibility and energy efficiency.

STREET & OUTDOOR MARKING

SOLVENT-BASED PAINT

Luminescent paint for urban markings: bicycle paths, pedestrian walkways, greenways, sidewalks, dangerous curbs...

FIELDS OF APPLICATION

- **Cycling areas** : greenways, cycle paths
- **Pedestrian walkways**: sidewalks, footpaths
- **Animation marking** on roads
- **Road traffic** (subject to an experimental protocol approved by the public authorities)

COLOR VARIATIONS

ALMOND GREEN

10h visibility
Class G

WHITE

6h visibility
Class E

YELLOW

6h visibility
Class E

BLUE

6h visibility
Class E

TECHNICAL FEATURES

- Highest luminance durations on the market
- Certified luminescence (CE ISO17398 standard)
- Recharges in a few minutes
- Shipment within 7 working days

INDUSTRIAL & INDOOR MARKING

WATER-BASED PAINT

Luminescent paint for indoor applications and vertical and horizontal industrial safety: staircases, emergency exits, access ramps...

FIELDS OF APPLICATION

- **Industrial signage:** stairs, ramps, emergency exits
- **Safety marking:** inside public or private buildings
- **Urban planning:** concrete blocks, boulders, anti-intrusion barriers
- **Artistic creations:** art projects and interior design elements

COLOR VARIATIONS

ALMOND GREEN

10h visibility
Class G

WHITE

6h visibility
Class E

YELLOW

6h visibility
Class E

BLUE

6h visibility
Class E

TECHNICAL FEATURES

- Highest luminance durations on the market
- Certified luminescence (CE ISO17398 standard)
- Recharges in a few minutes
- Shipment within 7 working days

INDOOR & OUTDOOR MARKING

PAINT FOR METAL

Luminescent paint for all types of metal surfaces and ferrous substrates. Ideal for bollards, barriers and street furniture.

FIELDS OF APPLICATION

- **Industrial signage:** stairs, ramps, emergency exits
- **Vertical and horizontal signage**
- **Urban planning:** signs, posts and bollards
- **Urban structures:** footbridges, metal bridges

COLOR VARIATIONS

ALMOND GREEN

10h visibility
Class G

WHITE

6h visibility
Class E

YELLOW

6h visibility
Class E

TECHNICAL FEATURES

- Highest luminance durations on the market
- Certified luminescence (CE ISO17398 standard)
- Recharges in a few minutes
- Shipment within 7 working days

ROAD & OUTDOOR MARKING

TWO-COMPONENT PAINT

Two-component luminescent coating for pavement markings in private areas and on roads. Ideal for crosswalks, parking lots and underpasses.

FIELDS OF APPLICATION

- **Pedestrian walkways:** crosswalks
- **Industrial signage**
- **Road traffic** (subject to an experimental protocol approved by the public authorities)

COLOR VARIATIONS

WHITE

6h visibility
Class E

TECHNICAL FEATURES

- Highest luminance durations on the market
- Certified luminescence (CE ISO17398 standard)
- Recharges in a few minutes
- Shipment within 7 working days

INDOOR & OUTDOOR MARKING

SPRAY CAN

Photoluminescent spray paint can. Ideal for marking small areas and warning users of hazards or obstacles in the dark.

FIELDS OF APPLICATION

- **Industrial signage:** stairs, ramps, emergency exits
- **Parking lots and basements** plunged into darkness
- **Street furniture:** posts and bollards
- **Artistic creations:** art projects and interior design elements
- **Danger zones** and temporary work

COLOR VARIATIONS

ALMOND GREEN

10h visibility
Class G

TECHNICAL FEATURES

- Highest luminance durations on the market
- Certified luminescence (CE ISO17398 standard)
- Recharges in a few minutes
- Shipment within 7 working days

PRODUCT RANGE

Ref.	Product	Luminescence time	Luminescence class	Application	Type of installation	Packaging
SOLVENT-BASED MARKING						
AG1000S	Almond green road paint	10h	G			10 / 20 kg
AG1000S	White road paint	6h	E			10 / 20 kg
